ABOUT US

Company Profile :-

Mount Stone group of companies is a decade old establishment in the electrical appliances product range. The group is very passionate on deployment of latest technologies in its products as well as in manufacturing facilities duly backed by robust quality systems and digitized processes. Mount Stone team is committed to on-going innovations that would delight the customer with energy saving products and will take the Mount Stone brand world-wide much ahead of its times.

Mission :-

Our mission is to innovate and develop quality products that value for money to customers and to provide wide range of services in electrical appliances.

Vision :-

Providing product variants that delight the customers in different geographies of the world –thereby making Mount stone a global brand.

Continuous innovations to develop new products that more than meet the customer expectation.

Recognize the needs of customers and provide best latest technology products.

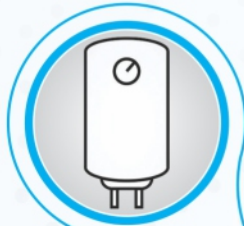

Values :-

- Customer Priority
- Commitment
- Positivity
- Courage
- Teamwork
- Integrity
- Continuous Improvement

KEY FEATURES

Long Life High Grade 304L Tank: High Quality SS Tank with more reliability and durability.

Anti -Corrosive Metal Body : Durable and non-corrosive high quality metal body.

Multi Safety Protection: High quality thermostat, thermal cut-out & Safety valve used for protection of high temperature.

High Energy Saving: Energy efficient and eco-friendly, consumes very less amount of electricity.

Heavy Copper Element: Pure copper element with heavy weight with good reliability and sustainability.

Good Puf Insulation: High density PUF insulation for better energy savings.

Rust Proof: Protection of rust for outer and inner body.

High Quality Stem Thermostat: High quality precision thermostat with good reliability.

LED Power Indication: Long life high quality LED indicators used for heating and cut-out indications.

**Ss Tank capacity
6, 10, 15, 25 Lt.**

WARRANTY 5 Years on Tank | 2 Years on Electrical Components | 6 Months Product Replacement

MODEL- CLARKIA ABS

Glass line tank also available in this model.

- High Energy Saving with 5 star rating
- Rust proof, high impact resistant ABS body
- High quality capillary thermostat
- Double safety protection for overheating
- Adjustable temperature knob between 25C to 75C (15 & 25 lt. only)
- Extreme pressure checked for Ss tank (Up to 100psi)
- Specially for high rise buildings (glass lined tank)
- Exclusive single weld on inner tank
- Long life & Reliable Copper heating element
- Heating & Cut-off LED Indicators
- Multi-functional safety valve
- Power consumption 2000W
- ISO 9001:2015 Certified

Ss Tank capacity
6, 10, 15, 25, 35, 50 Lt.

WARRANTY 5 Years on Tank | 2 Years on Electrical Components | 6 Months Product Replacement

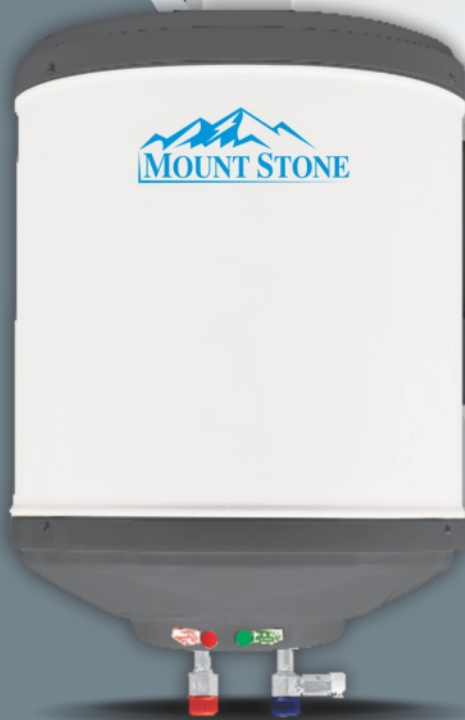

MODEL- ORCHID METAL

Glass line tank also available in this model.

- High Energy Saving with 5 star rating
- Rust proof, high impact resistant metal body
- Heating & Cut-off LED Indicators
- Multi-functional safety valve
- Extreme pressure checked for Ss tank (Up to 100psi)
- Exclusive single weld on inner tank
- High quality stem thermostat
- Double safety protection for overheating
- Power consumption 2000W
- ISO 9001:2015 Certified

Ss Tank capacity
6, 10, 15, 25, 35, 50 Lt.

WARRANTY 5 Years on Tank | 2 Years on Electrical Components | 6 Months Product Replacement

MODEL- VERBENA ADVANCED METAL

Glass line tank also available in this model.

- High Energy Saving with 5 star rating
- Rust proof, high impact resistant metal body
- Heating & Cut-off LED Indicators
- Multi-functional safety valve
- Extreme pressure checked for Ss tank (Up to 100psi)
- Exclusive single weld on inner tank
- High quality stem thermostat
- Double safety protection for overheating
- Power consumption 2000W
- ISO 9001:2015 Certified

Ss Tank capacity
6, 10, 15, 25, 35, 50 Lt.

WARRANTY 5 Years on Tank | 2 Years on Electrical Components | 6 Months Product Replacement

MODEL- VERBENA

METAL

Glass line tank also available in this model.

- High Energy Saving with 5 star rating
- Rust proof, high impact resistant metal body
- Heating & Cut-off LED Indicators
- Multi-functional safety valve
- Extreme pressure checked for Ss tank (Up to 100psi)
- Exclusive single weld on inner tank
- High quality stem thermostat
- Double safety protection for overheating
- Power consumption 2000W
- ISO 9001:2015 Certified

Ss Tank capacity
15, 25 Lt.

WARRANTY 5 Years on Tank | 2 Years on Electrical Components | 6 Months Product Replacement

MODEL- ZINNIA METAL

Glass line tank also available in this model.

- High Energy Saving with 5 star rating
- Rust proof, high impact resistant ABS body
- High quality capillary thermostat
- Double safety protection for overheating
- Adjustable temperature knob between 25C to 75C (15 & 25 lt. only)
- Extreme pressure checked for Ss tank (Up to of 100psi)
- Specially for high rise buildings (glass lined tank)
- Exclusive single weld on inner tank
- Long life & Reliable Copper heating element
- Heating & Cut-off LED Indicators
- Multi-functional safety valve
- Power consumption 2000W
- ISO 9001:2015 Certified

**Ss Tank capacity
15, 25 Lt.**

WARRANTY 5 Years on Tank | 2 Years on Electrical Components | 6 Months Product Replacement

MODEL- ASTER ABS

Glass line tank also available in this model.

- High Energy Saving with 5 star rating
- Rust proof, high impact resistant ABS body
- High quality capillary thermostat
- Double safety protection for overheating
- Adjustable temperature knob between 25C to 75C (15 & 25 lt. only)
- Extreme pressure checked for Ss tank (Up to 100psi)
- Specially for high rise buildings (glass lined tank)
- Exclusive single weld on inner tank
- Long life & Reliable Copper heating element
- Heating & Cut-off LED Indicators
- Multi-functional safety valve
- Power consumption 2000 W
- ISO 9001:2015 Certified

Ss Tank capacity
1, 3 Lt.

WARRANTY 5 Years on Tank | 2 Years on Electrical Components | 6 Months Product Replacement

MODEL- WINTER BERRY ABS

Glass line tank also available in this model.

- High Energy Saving
- Exclusive single weld on inner tank
- Long life & Reliable Copper heating element
- Compact & Sleek Design
- Double safety protection for overheating
- Power consumption 3000W
- Instant hot water flow in few seconds
- Rust proof, high impact resistant ABS body
- High quality stem thermostat
- Heating & Cut-off LED Indicators
- Multi-functional safety valve
- ISO 9001:2015 Certified

Ss Tank capacity
1, 3Lt.

WARRANTY 5 Years on Tank | 2 Years on Electrical Components | 6 Months Product Replacement

MODEL- WINTER JASMINE ABS

Glass line tank also available
in this model.

- High Energy Saving
- Exclusive single weld on inner tank
- Long life & Reliable Copper heating element
- Compact & Sleek Design
- Double safety protection for overheating
- Power consumption 3000W
- Instant hot water flow in few seconds
- Rust proof, high impact resistant ABS body
- High quality stem thermostat
- Heating & Cut-off LED Indicators
- Multi-functional safety valve
- ISO 9001:2015 Certified
